

# 2009-2010 Local School Plan For Improvement

## LSPI Objectives

February 2010

## PARKVIEW HIGH

David T Smith, *Principal*

Calvin Watts, *Area Superintendent*

Accountability and flexibility are hallmarks of Gwinnett County Public Schools' success. Key to that success is ensuring that each school community understands the progress being made by its schools, as well as what plans will drive improvement. Each school creates a collaborative Local School Plan for Improvement (LSPI), with targeted goals based on student achievement results. These goals are dynamic, like our schools, and are updated to reflect changes that occur in schools. Data is used to determine areas needing improvement and to identify specific, measurable, annual objectives. Schools then determine how to use research-based strategies to achieve these goals, using flexibility as needed. The LSPI development process involves teachers, parents, and community members, so the entire school community has the opportunity to be involved in conversations about school improvement. Please contact the principal to see the detailed implementation plan designed to achieve the following objectives.

### Key Objectives 2009-2010 Local School Plans for Improvement

**Objective:** Parkview High School will increase academic performance in English/Language Arts for all students, specifically focusing on English Language Learners to meet and/or exceed annual targets through on-going professional learning relative to research based vocabulary and reading comprehensive strategies, collaborative planning between ELL teachers and LA teachers, and student intervention groups based on the results of unit assessments and interim assessments.

**Objective:** Parkview High School will increase academic performance in English/Language Arts for all students, specifically focusing on students with disabilities to meet and/or exceed annual targets through on-going professional learning relative to research based vocabulary and reading comprehensive strategies, collaborative planning between Special Education teachers and LA teachers, and student intervention groups based on the results of unit assessments and interim assessments.

**Objective:** Parkview High School will increase academic performance in mathematics for all students, specifically focusing on Black/African American students to meet and/or exceed annual targets through collaborative planning with subject area teachers for targeted interventions, problem solving strategies, and student intervention groups based on the results of unit assessments and the 9 week interim assessment.
